**The New York Health Care Alliance** is a network of 49 post acute health care facilities providing a continuum of high quality care for patients who need sub-acute care and rehabilitation.

The Direct Link is a patient placement service which provides **Case Managers** and **Discharge Planners** with expert support and direct access to over 12,000 skilled nursing, sub-acute and rehabilitation beds.

The patient placement service provided by the **New York Health Care Alliance** can be accessed by calling: **1-877-HI-NYHCA**. **PRI's can be faxed to 212-968-7710, ATT: Carolyn Angrisani.**

Recently, **Margaret Tietz Nursing and Rehabilitation Center**, a 200-bed facility, located at 164-11 Chapin Parkway in Jamaica, was featured in the TimesLedger.com, an on-line community newspaper covering local news and sports in Forest Hills, New York. Titled "Caring with Empathy" the article highlighted the unique services this facility provides to a population of Holocaust survivors and their families.

The article goes on to report on the specialized environment for this clientele from state of the art medical services and social work interventions that are sensitive to the lingering psychological effects of the Holocaust to programs for religious study as well as Sabbath and holiday services.

As the population changes, so has the **Margaret Tietz Center**. While Holocaust survivors now comprise only 20% of the facility's residents, staff at the facility find they are translating materials into Chinese, Spanish, Indian and Russian to better serve a very diverse community.

**Margaret Tietz Center** also has a medical model Adult Day Health Care Program, an in-patient hospice care unit, short-term rehabilitation facility and recently, through a grant from the United Hospital Fund, a holistic program that incorporates palliative care and Chinese Medicine.

Things are not stopping at the **Margaret Tietz Center**. Planning is in the works for the creation of a "life care retirement community" to include independent living facilities, skilled nursing care, enrichment housing, a daycare center and a dialysis facility.
